

Mr. Bondi arrived at 7:18pm and was present for the remainder of the meeting.

**III. SET THE CAP ON THE OPERATING BUDGET FOR THE FISCAL YEAR 2002-2003**

Jack Miller, Finance Director, said that the Charter provides that the Council set a cap on the maximum limit of the expenditures of the City. On January 22<sup>nd</sup>, the Council set a place-holder cap. The Board of Estimate & Taxation has worked on the budget and has transmitted a recommended Operating budget. If the Council chooses to revise a cap, it requires a 2/3rds vote.

John Lombardi, 2 William Street, asked if the public would be allowed to speak. Mayor Knopp pointed out that at Special Meetings, there is generally no public comment period, but if Mr. Lombardi would like to speak, it would be permitted.

Mr. Lombardi said he was disturbed because he keeps hearing that the education budget has been under funded in the past. The Board of Education budget has been increased by \$27,000,000 since 1998, not including grant funds. With a small increase in student population, they will increase certified and non-certified employees by approximately 30 people. Mr. Lombardi also said that there are part-time City employees being paid \$20 an hour. Part-time employees used to be people working less than 19 hours per week. There is an employee who, for 2001-02, averaged a little over \$1,300 per week. This current year, from July 1<sup>st</sup> this same person has averaged \$1,397 per week as a part-time employee. The accounts being used to fund this position are Calf Pasture, the sports program, the boat show, etc. It is also being charged to the Heritage Park account, which is a maintenance account. Mr. Lombardi said he hopes someone looks into this. On a different topic, Mr. Lombardi said that 2.11 mills would be taken out of the taxes through the change to the water fee. The homeowner will still pay this amount, which is part of the tax on the homeowner's home.

Mr. Mann noted that Councilmen Kimmel and Perone were not present because of Metro North delays.

**\*\* MR. MANN MOVED TO APPROVE THE RESOLUTION (ATTACHED) SETTING THE CAP ON THE OPERATING BUDGET FOR THE FISCAL YEAR 2002-03 AT \$188,048,993.**

Mr. Wrenn asked about the \$310,000 for the Master Plan. He asked why that was in Contingency. Mayor Knopp said it remains in the contingency account until it is released. He wants to see more serious work done.

Mr. Krummel said he was concerned about funding for the master plan being in the contingency account and about the status of the pension plans. The City will most likely be required to contribute the City's pension plans in the amount of \$1,649,410. Mayor

Knopp said that had been based on a preliminary estimate. Mr. Miller said they had a preliminary indication from the actuaries but after they reviewed it again, the actuaries have indicated no need to make a pension plan contribution next year.

Mr. Bondi thanked the department heads for coming in with a budget that they can work with. They did a very good job in keeping the budget down and keeping taxes down.

Mr. Wrenn said it was a great budget and he agreed that the department heads should be thanked. He said that this budget covers all essential needs. He asked, since the money for the master plan is in contingency, who would decide when it would be released. Mayor Knopp said that decision would be made by him, the Board of Estimate & Taxation and the Council.

Mayor Knopp said that CCM had a legislative meeting this morning, which he attended, and the overall sense was that this is a very tight budget year. The recession has had a significant negative effect on the budgets of municipalities. Given these difficult fiscal times, we have done a remarkable job in developing a responsible budget that:

1. Holds the property tax increase to a minimum (increasing property taxes by approximately 1.6%).
2. Holds spending down in the City.
3. Implements their priority of increasing investment in the Board of Education.
4. Increases property tax relief for senior citizens.
5. Accomplishes this not through gimmicks, but through solid, substantial reform in the local property tax system by creating a new municipal utility for a water control plan.

Mayor Knopp stated that this is the third year of a revaluation put into effect by the previous administration. This is a solid, substantial budget that funds their priorities and keeps the mill rate down.

**\*\* MOTION PASSED UNANIMOUSLY BY ROLL CALL VOTE. (Twelve for, none opposed, no abstentions)**
